

Before applying the repair kit, it is recommended to first try to remove the stains with a 'miracle sponge'.

Color	White Pergamon	Concrete Light Concrete Dark Granite Grey Imitation Bluestone
Sandpaper	P180	P180
Sandpaper	P220	P220
Sandpaper	P400	P400
Scouring pad		SCOTCH-BRITE (moisten first)

Remove superficial scratches by circular motions starting with P400.

Remove deeper scratches by circular movements starting with P180.

Sanding in circular motions: white and pergamon with P400 - other colors with Scotch-brite.

ATTENTION:

- * test on the back of the product first
- * the pressure placed on the abrasive material affects the finishing color
- * the best result is achieved with an eccentric sander
